

# AAUW St. Paul - Website Tour

## 3/16/2022

### Primary Functions of Our Website

1. Provide information on programs and activities.
2. Provide access to important documents such as Minutes, By-Laws, and Job Descriptions.
3. Showcase our Branch and AAUW National for prospective members and the larger public.

In addition, our Branch saves time, money and resources by posting as much information to the website as possible, avoiding printing and postage costs for many documents.

**NOTE:** Members who do not have Internet access receive important documents and information by mail.

# A Few Basic Definitions

**Website** – the collection of multimedia information on the Internet associated with a specific group or organization.

- **Web page** – a specific location on a website.

**Web Browser** – the software you use to access websites and web pages on the internet. Examples include: Chrome, Edge, Firefox, Safari, and Internet Explorer.

**Web address a.k.a. URL (Uniform Resource Locator)** – the text/information you enter into your web browser to get to a specific place on the Internet. This address can take you to:

- the primary or Home page of the website as a whole
- a specific page on the website
- a specific place on a page on the website

**Links a.k.a. hyperlinks** – a word, phrase, or even an image that you can click on to take you to a specific location, or web address, on the Internet. These are typically distinguished from other text by being a different color and underscored.

- **Menu** – a location on a website that contains links to other pages on the website, usually organized by topics of interest.

**Bookmarks or Favorites** – links that you save in your browser so you don't have to remember the web address of places on the Internet that you go to regularly. The way to save a bookmark or favorite can vary with the browser you are using.

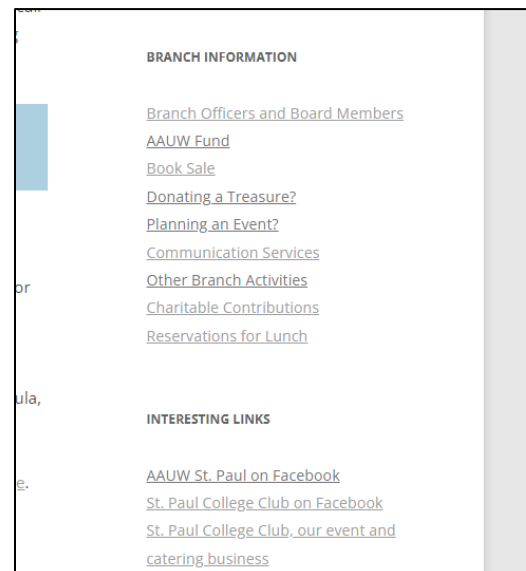

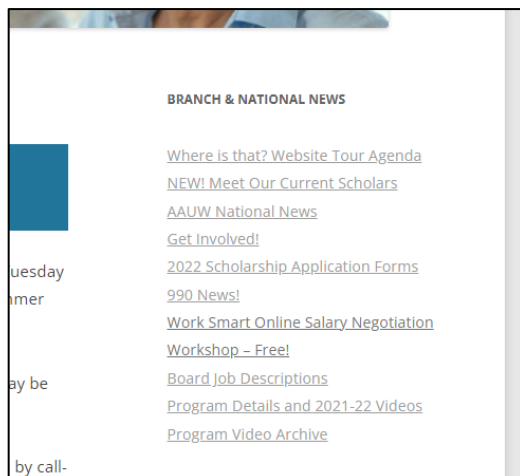

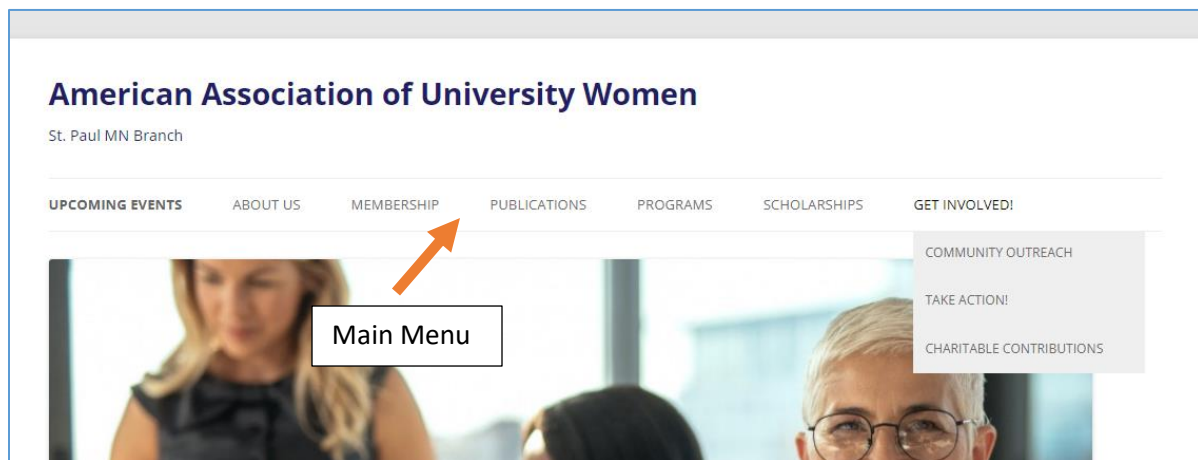

Use this link to go to a website page with a more comprehensive, and more technical, glossary of common Internet-related words, phrases and abbreviations: <https://techboomers.com/t/internet-glossary>

# And now for the tour!

## The AAUW St. Paul MN website:
